

ALEX NJUGUNA KINUTHIA

B.Sc. Applied Computer Science | AWS Certified Solutions Architect | Full-Stack Software Engineer
Nairobi, Kenya | +254 (0)117 379 486 | njugunakinuthia013@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Results-driven Software Engineer with 6+ years of experience building scalable full-stack applications and cloud solutions. AWS Certified Solutions Architect with deep expertise in Python, Go, Rust, JavaScript, TypeScript, and cloud architecture. Proven track record of deploying production systems serving thousands of users, implementing machine learning models that improved decision-making accuracy by 25%, and architecting AWS infrastructures that reduced operational costs by 30%. Seeking to leverage technical expertise and innovative problem-solving to drive impactful solutions in software engineering, cloud development, and IT leadership roles.

KEY ACHIEVEMENTS

- **Cloud Cost Optimisation:** Reduced cloud infrastructure costs by restructuring AWS resource allocation for a client, achieving meaningful monthly savings without compromising reliability or uptime.
- **ML-Driven Revenue Forecasting:** Built a predictive pricing model for a local retail client (KES 2M+ monthly revenue) that improved forecast accuracy and informed smarter stock and pricing decisions.
- **E-Commerce API at Scale:** Developed and maintained a Golang/Gin RESTful API backend for an e-commerce platform processing 50,000+ daily transactions at 99.8% success rate.
- **Consistent Project Delivery:** Delivered 12 freelance projects on time and within scope, maintaining a 95% client satisfaction rate across the East Africa region.
- **Faster Release Cycles:** Co-led microservices adoption at Datacare Ltd, reducing deployment friction and enabling independent team releases.
- **Workflow Automation:** Created C# desktop automation tools for SME clients, eliminating several hours of manual data-entry work per week.

PROFESSIONAL EXPERIENCE

Co-Founder & Chief Technology Officer

[RankSavanna](#) | Feb 2025 – Present

- Co-founded RankSavanna, an enterprise SaaS platform unifying Technical SEO Intelligence, a Cloud Enterprise POS Suite, and a full-scale ERP system under one subscription.
- Architected and led full-stack development using Go (Golang), JavaScript, TypeScript, Bootstrap, HTML, and Lightpanda for JS rendering — supporting 150+ SEO audit signals, M-Pesa/PayPal/Binance payment integrations, and offline-first POS functionality.
- Designed a multi-tenant ERP suite covering General Ledger, Accounts Receivable/Payable, Payroll, CRM, Inventory Management, and RBAC for growing East African businesses.
- Defined product roadmap, engineering culture, and technical strategy, scaling the platform to 100+ active users.
- Built and exposed a public REST API enabling third-party integrations and extending the platform beyond the core web application.

Independent Software Engineering Contractor

[Self-Employed](#) | Dec 2021 – Jan 2025

- Architected and deployed 15+ AWS cloud solutions utilising EC2, S3, Lambda, RDS, and CloudWatch — achieving 99.9% uptime and reducing infrastructure costs by 30% through optimised resource allocation.
- Engineered full-stack web applications using Python, Go, JavaScript, TypeScript, and Spring Boot, serving 10,000+ users with sub-second response times.
- Developed RESTful APIs for e-commerce platforms using Golang and Gin, processing 50,000+ daily transactions with a 99.8% success rate.
- Built and deployed ML models for revenue forecasting and dynamic pricing, improving prediction accuracy by 25% and contributing to KES 10M+ in annual client revenue.
- Led Agile development teams across 12 projects, delivering on time and within budget while maintaining a 95% client satisfaction rate.
- Created WinForms/C# desktop applications that streamlined business workflows and reduced manual processing time by 40%.

Software Engineer

Datacare Ltd | July 2018 – Dec 2021

- Developed and maintained enterprise-grade web applications using Python, JavaScript, Java, and C#, supporting 5,000+ concurrent users.
- Implemented responsive UI/UX with HTML5, CSS3, and JavaScript, achieving 98% cross-browser compatibility and a 40% improvement in page load times.
- Integrated Spring Boot microservices architecture, improving scalability and reducing deployment time by 50%.
- Applied machine learning algorithms to optimise data processing pipelines, cutting processing time by 35% and surfacing actionable business insights.
- Collaborated within cross-functional Agile teams of 8+ members, consistently meeting sprint goals and deadlines.

EDUCATION

Master of Science in Financial Engineering

WorldQuant University | In Progress (Expected 2028)

Bachelor of Science in Applied Computer Science

Kisii University | 2019

- Thesis: "Leveraging Machine Learning for Symptom-Based Diagnosis: A Predictive Model for Mapping Symptoms to Ailments"

CERTIFICATIONS & PROFESSIONAL TRAINING

- **AWS Certified Solutions Architect – Associate:** Amazon Web Services — 2024
- **AWS Certified Cloud Practitioner:** Amazon Web Services — 2024
- **AWS Re/Start Graduate:** Emobilis Technology Academy — 2024 | Intensive training in Linux, Python, SQL, and AWS Cloud Architecture
- **ALX Full-Stack Software Engineer:** ALX Software Engineering School — 2024
- **B.Sc. Applied Computer Science:** Kisii University — 2019

TECHNICAL SKILLS

Languages

Python, Go (Golang), Rust, JavaScript, TypeScript, Java, C# (.NET), SQL, Bash

Web & APIs

Django, Gin, ReactJS, Spring Boot, ASP.NET, HTML5, CSS3, Bootstrap

Cloud & DevOps	AWS (EC2, S3, Lambda, RDS, CloudWatch, DynamoDB), Docker, Git, Linux, CI/CD Pipelines
Databases	PostgreSQL, MySQL, MSSQL, SQLite, Database Design & Query Optimisation
Specialisations	Machine Learning, RESTful API Development, Microservices Architecture, Agile/Scrum
Tools	Git/GitHub, JIRA, Visual Studio, VS Code, Postman, WinForms

PROFESSIONAL ATTRIBUTES

- Advanced problem-solving with strong analytical thinking and debugging expertise
- Effective cross-functional team collaboration and stakeholder communication
- Strong time management with ability to prioritise multiple concurrent projects
- Continuous learner committed to staying current with emerging technologies
- Client-focused approach with a proven track record of delivering measurable business value
